

**Call for manuscripts for a Special Issues of the
Proceedings of the Indian National Science Academy (PINSAs)
On Science and Technology by Young Scientists**

The **Indian National Young Academy of Sciences (INYAS)** is an academy of talented young scientists, functioning under the aegis of **Indian National Science Academy (INSA)**, New Delhi. INYAS is the first such academy in India and is inspired by the Global Young Academy (GYA). Established in 2015, the vision of INYAS comprises i) to attract the youth towards science, ii) to disseminate the excitement of science at pre-college and university levels, and iii) to establish a network of young scientists in India. The members of INYAS are committed young scientists keen on contributing to the betterment of scientific understanding in India.

INYAS proposes a special issue of the *Proceedings of the Indian National Science Academy (PINSAs)* to provide a window into the exciting work being done by young researchers. It, therefore, invites all young scientists, including the members of INYAS, to contribute to this special issue by submitting original research articles and reviews on contemporary topics in all areas of science (Physical and chemical sciences / Biological Sciences / Applied Science / Interdisciplinary Science), engineering and technology.

Authors are requested to prepare their manuscript as per the prescribed guidelines (see "[Guidelines to Authors](#)") and submit the manuscript online at <http://insajournal.in>. All articles will be subjected to the peer review process as required by the journal.

The following timelines apply

Expression of Interest by desiring authors:	June 15, 2018
Deadline for Article submission:	July 31, 2018
Expected Date of publication:	December 2018/January 2019

Guest Editors

Dr. Pankaj Kumar
Scientist- E, Accelerator Mass Spectrometry Group,
Inter-University Accelerator Centre (Formerly Nuclear Science Centre)
