   Email: Tel:
   Mobile:

----

*   Please give details of OCI/PIO status and a statement that the nominee has been working in India for at least 10 years, in case the nominee is not an Indian national.

The nominators must ensure that the nominee belongs to this category (Science for Society) and the contributions are not covered by any other regular category. The Search Committee reserves the right to transfer the nomination to another category if deemed appropriate.

7. A maximum one-page write-up on the contribution and socio-economic impact of the nominee's work on society is to be attached.

8. The complete CV of the nominee emphasizing relevant contributions is to be attached.

IMPORTANT INSTRUCTIONS

• The Nomination is to be signed by *two Fellows.* The Vice-President (Fellowship Affairs) shall have the power to sign a certificate on behalf of a Fellow upon receiving a written request from him/her.

• The completed nomination form and all attachments should be combined into a single pdf file named "LN-FN-yyyy.pdf", where LN is the last name and FN is the first name of the nominee and yyyy is the year. The "Explanatory notes" and "Important Instructions" should not be included in the file.

• Proposers may please ensure that the nomination form is duly completed and information, as required by the Academy, is included.

• The nomination is to be returned duly completed in all respects by the Proposer or the Seconder to the Executive Director, Indian National Science Academy, Bahadur Shah Zafar Marg, New Delhi 110 002, email: fellowship@insa.nic.in, to reach not later than *15ᵗʰ July*.

• The work done in India should be given primary importance for nomination for Fellowship. The primary criterion for election to the Fellowship will be based on the societal impact of the nominee in the following areas:

(a) Nominee must have done notable scientific work or applied scientific knowledge to combat societal challenges.

(b) Notable scientific advances as applicable that have now major societal impact will be considered.

(c) Preference should be given to the nominee who has either generated or used at-scale scientific solutions to address major problems of different sectors that impact everyday life. Examples: Energy, Water, Health, Transport, Agriculture, Environment, Climate Change, Sustainability etc.

(d) Preference should be given where actions have been implemented with significant impact in addressing societal needs.

(e) Significant and impactful contributions in popularizing science, history and philosophy of science and associated sciences like archaeology, forensic and others as related to society.
